## Product Description

12V 900lm for Underwater LED Boat Lights, Lighting Solution for Boats and Yachts

### Product Description:

Our **Underwater LED Boat Lights** are designed to provide a bright and efficient lighting solution for boats, yachts, and swimming pools. The aquatic LED light is made from high-quality ABS material, ensuring that the lights are both durable and waterproof. The lights are available in two power levels – 5W and 10W, as well as 12V voltage, which allows a wider range of applications. The 45° beam angle ensures that the lights can be used in a variety of ways, providing bright illumination for any underwater environment. Our Underwater LED Boat Lights are the perfect addition to any boat or yacht, providing a bright and efficient lighting solution.
